DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

- a. The applicant should change the phrase "A mobile station according to" as recited in claims 2-3 and 5-6 to "The mobile station according to" and the phrase "A method according to" as recited in claims 16-24 to "The method according to", for consistency.

- b. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. **The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided.** The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

The applicant's response (See Remark, page 6-7) filed on 12/10/2007, clearly states the inventive steps of the instant application, as specified in claims as well as in accordance with the specification, figure 3.
